EDCP 569: Technology Issues?
September 10, 2020

[COPY CHRISTINA DONELLY]

Dear Nicole, Jiewei, Lindsay, Fang, Kieran, Megan K, Jun, Lin, Solmaz, Sigfried, Blessing, Tien, Megan R, Chad, Xuezhu, Yiwen, Lisa, and Christina

I know that most of you were able to connect and participate in the class last night.

However, I think there were two or three folks that had some challenges with their technology.

This email message is primarily for those with technology challenges.

1) 30 Minutes Before Each Class
--------------------------------------------
I will open the EDCP 569 Zoom meeting room at least 30 minutes before each class for anyone who wants to quickly check their technology connection.

2) Sign Up For Your Own Zoom Account
-----------------------------------------
If you haven't done so already, it would be helpful if you have signed up for your own Zoom Account: https://zoom.us/freesignup

3) If You Can't Sign Up For Your Own Zoom Account, Please Contact Tony
--------------------------------------------------------------------------------
If for some reason you can't sign up for a Zoom account (perhaps it is difficult to do so from your region), please send me an email indicating your challenge and I will ask the UBC Technology Services group to try and create an account for you for UBC.

4) Is Your Email Address Up To Date in the UBC System
--------------------------------------------------------
Please make sure that your email is up-to-date with the UBC student system.

5) Technology Check Before Next Week
---------------------------------------------
If anyone wants to check their technology before next week, just send me an email and we can arrange a time to open the Zoom classroom and check your technology.

6) Other?
----------
Please don't hesitate to contact me if you have any other questions.

Best,

Tony.
